EDUCATION

Tecnologico de Monterrey (ITESM)

B.S. in Computer Science and Technology

Aug. 2024 – June 2028 (Expected)

Guadalajara, Mexico

EXPERIENCE

E-commerce & Automation Developer

Ranch Depot GDL

May 2024 – Present

Jalisco, Mexico

- Developed a **backend API in Node.js** to connect Shopify's product catalog with a **WhatsApp chatbot**, enabling customers to search available products via SendPulse.
- Managed and optimized the Shopify storefront, launching over **500 new SKUs** and enhancing product categorization to streamline user experience.
- Boosted** online sales by **800%**, achieving the **highest revenue month** in company history through integrated e-commerce strategies, **automation**, and targeted ad campaigns.

PROJECTS

Hospital Management Application | *Python, Tkinter, Mail*

Jan. 2024 – May 2024

- Developed a hospital application with three viewing modes to improve patient management.
- Implemented an **automated email** system to send patients PDF invoices and essential medical information, improving communication and billing efficiency.
- Implemented patient **data management** through a priority queue, optimizing healthcare delivery and ensuring that the most critical patients are attended to first.

Hotel Management System | *C++, OOP, CLI*

May 2025 – June 2025

- Engineered a modular hotel system with a **class-based architecture** simulating room types, services, and hotel operations.
- Implemented an interactive command-line interface to manage check-ins, check-outs, service charges, and real-time occupancy reporting.
- Developed a **polymorphic room hierarchy** to **encapsulate** behavior and streamline functionality.

Smart Mirror | *OpenCV, FaceRecognition, React, Node, MongoDB, MySQL, Raspberry Pi* Sep. 2025 – Nov. 2025

- Development of a smart mirror with **facial recognition and voice recognition** capable of displaying personalized information such as events, reminders, and daily habits.
- Integration of IoT hardware (Raspberry Pi, sensors, and actuators) with a **full-stack architecture** that enables seamless communication between the device and **cloud services**.
- 1st place at Tec de Monterrey's Expo Ingenierías, Campus GDL (Physical Prototype Category).**

LEADERSHIP AND VOLUNTEERING

ITESM Ambassadors Program

Aug. 2023 - Jul. 2024

- Spoke in front of more than **700 people** at conferences and **represented ITESM at official events**, providing guided tours, promoting the institution in schools, and facilitating connections with interested families..

HACK MTY 2025 – Banorte Smart Cities | *Python, Flask, React, Vite, MongoDB, scikit-learn* Oct. 2025

- Developed Banorte Ruta Consciente, a **fintech platform** that links financial services with urban mobility to reward sustainable habits, integrating predictive models with scikit-learn, **REST APIs** in Flask, mobility analysis, a **React/Vite** front-end, and collaborative teamwork in a 36-hour sprint.

TECHNICAL SKILLS

Languages: Python, C++, HTML/CSS, MATLAB, SQL, Javascript, Data Structures & Algorithms

Developer Tools: VS Code, Visual Studio, PyCharm, MySQL, Git, Github, SendPulse, MongoDB

Certifications: Python TOTAL - Programador Avanzado en 16 días | SQL TOTAL - Domina Bases de Datos | ONE Tech Foundation G8 - Data Science | Oracle APEX Cloud Certified Developer Professional
